

**Professor
Piotr Urbański
(1937-2010)**

Piotr Urbański, a member of the Editorial Board of “Nukleonika” passed away on March 27, 2010 after a long illness. Until the last days of His life, Professor was Head of the Laboratory of Nuclear Control Systems and Methods at the Institute of Nuclear Chemistry and Technology in Warsaw.

Professor Urbański began his professional activity at the Institute of Nuclear Research in 1958. His scientific activity was focused mainly on investigating radiation interactions with matter and the application of these phenomena for the construction of new more and more sophisticated apparatus and measurement gauges and their practical application.

Professor Urbański was for a long time a member of the Scientific Council of the Institute and an active expert of the International Atomic Energy Agency in Vienna. All those who knew Him highly appreciated his knowledge and responsibility. All his friends deeply moved by his death are sorely missing him.
