

**Effect of magnetic field on the corrosion
of iron as studied by positron annihilation
[Nukleonika, 55, 1, 31-34 (2010)]**

**Ryszard Pietrzak,
Roman Szatanik**

We must inform our readers with regret that part of the contents of the article by R. Pietrzak and R. Szatanik, "Nukleonika" 55, 1, 31–34 (2010) was also published by the same authors in "Physica Status Solidi B" 247, 7, 1822–1828 (2010).

The authors have expressed their sincere regrets towards the referees and readers of "Nukleonika" for the duplicated publication.
